

CENTRIFUGAL PUMP

FEATURES

HLG/HLW series of centrifugal pumps according to hydraulic principle of the pump design, noise, running quiet.

Pump body and flange, the material of the slag basket is filled with GF/PP, and the material of the impeller is filled with polystyrene.

Axial inlet and radial outlet, compact structure.

Transparent filter basket, easy to determine whether the need for cleaning, large capacity.

Motor have two models: inner cooling steel plate motor and outer cooling alluminum alloy motor. Voltage is 380V/50Hz or 220V/50Hz.

Model	Voltage	Power	Output	H-max	Tube Diamerer	Dimension LxWxH
HLW-200	220V/50Hz	1500W	29m ³ /h	16m	φ63/φ60	605x273x316mm
HLW-300	220V/50Hz	2200W	32m ³ /h	18m	φ63/φ60	605x273x316mm
HLW-350	380V/50Hz	2600W	35m ³ /h	20m	φ63/φ60	605x273x316mm
HLW-400	380V/50Hz	3000W	37m ³ /h	21m	φ63/φ60	605x273x316mm
